

Go Beyond What You *ever* Thought Possible with the new FO-6700 *super G3* Document Communication System from Sharp.

SHARP[®]

Equipped with Super G3 modem technology, the Sharp FO-6700 can transmit documents at an amazing two seconds per page, offering you the ultimate in productivity for your busy office or workgroup. And with JBIG compression, page data can be encoded more efficiently, especially when sending halftone images—resulting in crisp, clear transmissions.*

248 STANDARD AUTO-DIAL NUMBERS

With advanced auto-dialing capabilities, the FO-6700 is truly a workhorse. With 48 one-touch (rapid dial) keys and 200 speed dial numbers, the FO-6700 can accommodate today's high-volume fax environments.

BUILT IN PERSONAL AUTO-DIAL PHONE BOOKS

The FO-6700 is capable of programming 30 personal auto-dial phone books, with up to 64 phone numbers in each (for a total of 1920 additional numbers). Personal auto-dial phone books allow multiple users to register their own rapid dial keys and speed dial numbers. The FO-6700 can register 48 rapid dial keys and 16 speed dial numbers into each phone book.

FLASH MEMORY PROVIDES RELIABLE DOCUMENT STORAGE

Sharp's flash memory ensures that your documents will be stored safely in the event of a power failure. The FO-6700 comes standard with a generous 4 MB of flash memory, which can store up to 240 pages.* As your business needs grow, you can expand the memory up to 16 MB, for a total of up to 960 pages.*

1250 SHEET HIGH-CAPACITY PAPER STORAGE

The FO-6700 comes standard with two 500-sheet letter trays and one adjustable

250-sheet letter/legal tray to handle all of your heavy-duty faxing needs.

Convenient front-loading trays make loading additional paper a snap.

OPTIONAL DUAL LINE KIT

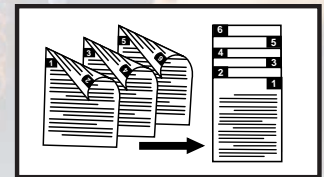

The FO-6700 is available with an optional Dual Line Kit, which allows the machine to use a second Super G3 modem for simultaneous transmission and reception over two phone lines. With the Dual Line Kit, the FO-6700 has the power of two Super G3 fax machines with the economy of a single unit.

INTUITIVE OPERATION

Operation and programming on the FO-6700 is easy and predictable. The keys on the control panel are arranged logically and are simple to use. Additionally, the supplies for the FO-6700 are color coded for easy replacement.

FAX SEPARATOR FEATURE

The FO-6700 incorporates an innovative fax separator feature that can insert a colored sheet of paper between incoming faxes for ease of separation. This eliminates multiple faxes being delivered to the wrong recipients. This feature also reduces the amount of time spent sifting through a stack of received faxes.

**SUPER
G3**

DUPLEX SCANNING SAVES TIME AND PAPER

Standard true duplex scanning allows users to transmit two-sided documents quickly and easily—without having to make a trip to the copier first to separate the pages. The FO-6700 scans both sides, then transmits them in the appropriate order.

REMOTE DIAGNOSTICS

With Sharp's WinFAST system, the FO-6700 can be connected to an authorized service technician, who monitors operation and can diagnose and solve problems right over the phone line. WinFAST also allows the technician to be proactive in responding to your needs, often before you even know a problem exists.

SPECIFICATIONS

Applicable Telephone Line	Public Switched Telephone Network (PSTN)	
Compatibility	ITU-T G3	
Configuration	Half-duplex desktop transceiver	
Compression Scheme	MH, MR, MMR, JBIG, Sharp special	
Memory Size	4MB (approx. 240 pages) includes Flash Memory backup; expandable to 16MB (approx. 960 pages)*	
Modem Rate	33,600 bps with auto. fallback*	
Transmission Time	Approx. 2 seconds per page*	
Scan Speed	2 seconds per page	
Print Speed	8 pages per minute	
Resolution in Text Mode	Super Fine:	400 lines/inch
	Fine/Halftone:	200 lines/inch
	Standard:	100 lines/inch
Recording System	Laser	
Reception Modes	Auto/Manual	
Effective Scanning Width	10.1 inches	
Effective Recording Width	8.0 inches	
Paper Capacity	1,250 pages Letter or legal (adjustable) in one 250 sheet tray; letter only in two 500 sheet trays	
Paper Stack Capacity	200 sheets	
Input Document Size	Automatic Feeding:	5.8" to 11" (148mm to 280mm)
	• Width	5.0" to 17" (128mm to 432mm)
	• Length	
	Manual Feeding:	5.8" to 11" (148mm to 280mm)
	• Width	5.0" to 39.4" (128mm to 1000mm)
	• Length	
Automatic Document Feeder	50 sheets max.	
Halftone (gray scale)	64 levels	
Copy Function	Single/Multi-copy/Sort-copy (99 copies/page)	
Power Requirements	120 V AC, 60 Hz	
Remote Fax Management	WinFAST	
Dimensions	18"(W) x 15.4"(D) x 20.1"(H)	

Accessories & Options

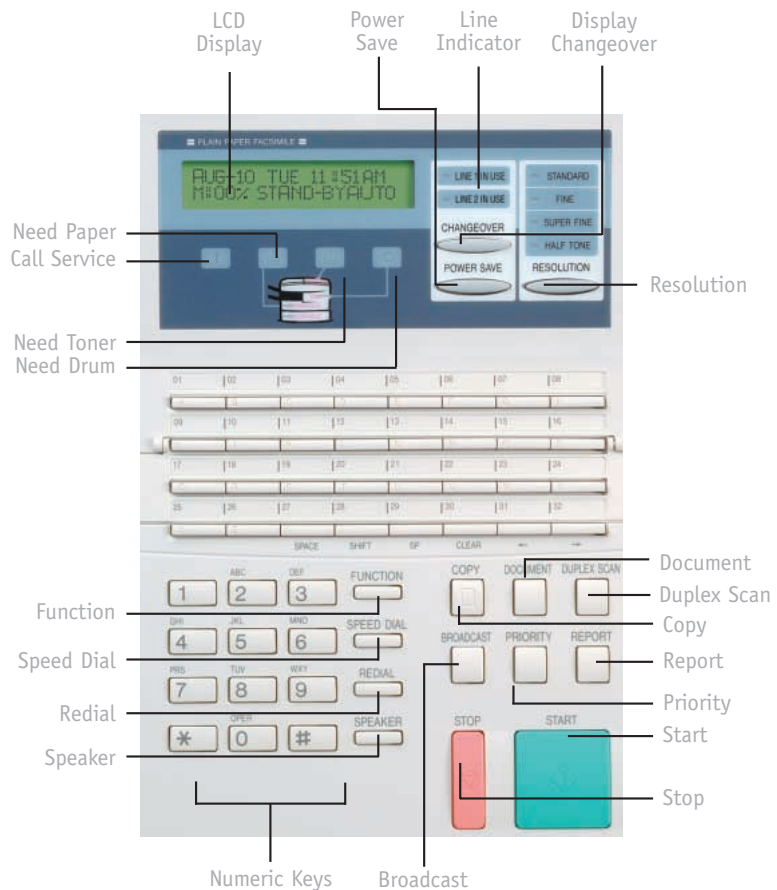

4MB Memory Upgrade	FO-4ML
8MB Memory Upgrade	FO-8ML
12MB Memory Upgrade	FO-12ML
